VAN RYDT INDUSTRIES

VAN RYDT

GENERAL STORE

Welcome

Van Ryt Industries (VRI) is a West Australian-based, industry-leading playground equipment manufacturer. We design, construct and install fun and functional equipment using a variety of materials, including sustainably sourced local Jarrah hardwood, steel and in-house manufactured rope features.

Led by hands-on Managing Director Ben Van Ryt, we take pride in being able to deliver the full spectrum of project services - from concept design through our in-house creative team, to construction and installation out of our warehouse in O'Connor.

We work closely with structural engineers and third party playground safety auditors to ensure our products are durable, safe and fully compliant with relevant Australian Standards.

And we believe the results speak for themselves: a fit-for-purpose, high quality product that not only slots seamlessly into its setting, but offers a high play value that has been designed and built specifically to withstand the harsh WA climate.

Like us, our Product Range continues to grow and evolve over time. If you're looking for something specific, please feel free to get in touch - we'd love to know how we can help.
